

Stephanie E Heintzman

Strategy

Experience

Digital Strategist Publicis

June 2017 - Present

I examine trends to identify insights (search, social, industry, competitor), work with all parties to align on digital tactics, the role they play in a campaign ecosystem, and define what success looks like.

- Wrote creative briefs
- Inspired creative territories using competitor examples, audits (social, site, apps), research (search, social, industry), and learnings from previous campaigns
- Created robust ecosystems for campaigns - identify tactics that best achieve business objectives, targeting strategies (remarketing / sequencing, geofencing), and amplifying a cohesive creative idea in a personalized, relevant way
- Developed test plans for digital ad units, defined KPIs, and worked with creative teams to build out versions
- Developed processes for dynamic capabilities
- Held lunch and learns for online video best practices, testing methodology, remarketing, dynamic capabilities, innovations (AR, ChatBots, Machine Learning) and personalization.

Clients include: Rogers, Walmart USA, FCA (Fiat Chrysler Automobiles), Dairy Queen, Sephora, The Home Depot, Avison Young, Metrolinx, PayPal, Bank Of The West, Head & Shoulders, Keurig, and numerous new business pitches
